

Dear Parent,

This summer my Cluster 3 classes (rising 6th -this will include the rising 5th graders who were enrolled in 6th grade math and rising 7th graders) will find their math work on MobyMax. Each student will be given their username and password to access the website. They can sign on at mobymax.com or they can use the unique school URL: www.mobymax.com/fl2163. On MobyMax they will find modules that I have assigned to them based on their grade level. Your child can access MobyMax from your home computer or on other devices at any time.

The following are two options to log on to MobyMax:

1. Go to www.mobymax.com/signin
2. Search for Lake Eola Charter or enter the school code: fl2163
3. Enter their username and password

-OR-

1. Go to www.mobymax.com/fl2163
2. Enter their username and password

Once logged on, your child will click on the books icon at the top of the page and then click on the math icon to find my assignments.

You will be able to monitor your child's progress by selecting "As a Parent" and entering your child's username and password. I suggest that you save their sign-on information to lessen any time lost they may experience while trying to recover their information from the school.

Sincerely,
Mr. Demyan
Lake Eola Charter School
